Pre-Meeting Setup and Test

We strongly recommend installing the software and doing an audio/video test prior to the meeting.

Bluejeans is accessed via the web browser. Depending on the browser, the service may require an app to be run or a browser plugin to be installed.

To install the software and test your microphone and video setup, open the link below

with a web browser and follow the on-screen prompts

<https://bluejeans.com/bluejean>

Recommended Setup

To ensure an ideal video-conference experience for all, we recommend

- a fast, reliable internet connection (ideally by ethernet network cable)

- A headset with a mic

- If applicable, power plugged in for laptop

- Only have Bluejeans videoconference running and, if applicable, powerpoint for your slides.
- Close all other programs and browser windows not needed for videoconference
